

Sinclair Broadcast Group uses the public airwaves free of charge, and is obligated by law to serve the public interest. Airing a deliberately one-sided smear attack like "Stolen Honor" against a presidential candidate, with two weeks before the election, constitutes a clear abuse of the public airwaves. Unless they also air a pro-Kerry film of the same length, AND in a comparable time slot, this abuse should result in forfeiture of their broadcast license.

FCC regulations specifically prohibit this kind of electioneering. If those regulations are to mean anything, they must be enforced.
